Computer Methods and Advances in Geomechanics (2 volumes)

Computer Methods and Advances in Geomechanics (2 volumes)

Covering a wide range of topics involving both research developments and applications, resulting from the 10th International Conference on Computer Methods and Advances in Geomechanics (IACMAG) held in January 2001 in Tucson, Arizona, USA. The theme of the conference was Fundamentals through Applications. The up-to-date research results and applications in this 2-volume work (> 1900 pages) should serve as a valuable source of information for those engaged in research, analysis and design, practical application, and education in the fields of geomechanics and geotechnical engineering.
