**Telemedicina (Italian Edition)** Silvia Selvaggi, Vincenzo Sica

Lo sviluppo di nuove tecnologie nell'era digitale e di sistemi informativi di condivisione, gestione e archiviazione dei dati, ha contribuito alla nascita di un nuovo modo di intendere l'attività del medico: la telemedicina. Esperti della Unione Europea la definirono come "l'integrazione, il monitoraggio e la gestione dei pazienti, nonché l'educazione dei medesimi e del personale, usando sistemi che consentano un pronto accesso alla consulenza di esperti e alle informazioni del paziente, indipendentemente da dove esso o le informazioni risiedano". Con i nuovi metodi di raccolta e trasmissione di dati, non è quindi più il paziente a spostarsi ma le informazioni che lo riguardano. Il volume introduce il lettore alla Information and Communication Technology (ICT) applicata alla medicina e ne illustra l'impatto sulla diagnostica e sulla terapia medica. Nell'ambito dello sviluppo di applicazioni software è fondamentale "parlare la stessa lingua"; gli autori di questo volume hanno pertanto voluto dare ampio spazio, da una parte alla descrizione degli standard utilizzati in informatica sanitaria, dall'altra alle norme attualmente esistenti e alla rappresentazione delle informazioni sui vari media. Per le sue caratteristiche, questo volume rappresenta uno strumento molto valido sia per quelle figure professionali (medici, amministratori di aziende sanitarie, tecnici di laboratorio, informatici e ingegneri) coinvolte nell'applicazione e nello sviluppo delle procedure della telemedicina, che per la didattica universitaria di quelle discipline rivolte a formare tali figure professionali.

### **From reader reviews:**

#### **Megan Rivera:**

Nowadays reading books become more than want or need but also become a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge the particular information inside the book in which improve your knowledge and information. The information you get based on what kind of book you read, if you want attract knowledge just go with education and learning books but if you want experience happy read one having theme for entertaining for example comic or novel. The particular Telemedicina (Italian Edition) is kind of reserve which is giving the reader unpredictable experience.

#### **Shannon Lynch:**

Your reading 6th sense will not betray you actually, why because this Telemedicina (Italian Edition) publication written by well-known writer whose to say well how to make book that can be understand by anyone who all read the book. Written in good manner for you, leaking every ideas and creating skill only for eliminate your current hunger then you still hesitation Telemedicina (Italian Edition) as good book not simply by the cover but also with the content. This is one reserve that can break don't evaluate book by its protect, so do you still needing a different sixth sense to pick this!? Oh come on your studying sixth sense already told you so why you have to listening to another sixth sense.

#### **Paul Frazier:**

Reading a book being new life style in this season; every people loves to read a book. When you examine a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what forms of book that you have read. In order to get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this sort of us novel, comics, and also soon. The Telemedicina (Italian Edition) will give you a new experience in examining a book.

#### **Billy Taylor:**

What is your hobby? Have you heard that question when you got students? We believe that that problem was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person just like reading or as looking at become their hobby. You have to know that reading is very important in addition to book as to be the issue. Book is important thing to include you knowledge, except your own teacher or lecturer. You find good news or update about something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is this Telemedicina (Italian Edition).
