The Selection of Behavior: The Operant Behaviorism of B. F. Skinner: Comments and Consequences

The Selection of Behavior: The Operant Behaviorism of B. F. Skinner: Comments and Consequences

This book was first published in 1988. B. F. Skinner was arguably the most important and influential psychologist of the last century. Yet in his long and distinguished career he consistently declined to be engaged by his critics. In his ninth decade, he elected to confront them all: cognitivists, ethologists, brain scientists, biologists, linguists, and philosophers - close to one hundred and fifty scientists and scholars from the entire spectrum of behavior-related disciplines around the world. Skinner's views on consciousness, language, problem solving, evolution, biology, brain function, computers, theory and explanation, presented in six seminal papers, are analyzed, criticized and explained in the 'open peer commentary' format of the Behavioral and Brain Sciences journal. The result is a remarkably lucid and revealing historical record of Skinnerian thinking and its impact on psychology and its allied disciplines. General readers, students, professionals and historians will find this unique intellectual exchange an invaluable resource.

Claudia Weidner:

As a college student exactly feel bored to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring and also can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this The Selection of Behavior: The Operant Behaviorism of B. F. Skinner: Comments and Consequences can make you really feel more interested to read.

Jerold Niemi:
