Hillary's History: An Informative Overview of the Political and Personal History of Hillary Rodham Clinton Joseph V McCauley

This historical summary is for the benefit of Millennials and younger people who, perhaps as first time voters, may not have a personal remembrance of the history of Hillary Clinton and her husband Bill. This book will also help refresh the memories of those people, like me, who have experienced the careers of the Clinton couple. The coming 2016 Presidential elections will be pivotal to the future of the United States. During Hillary's tenure as Senator and Secretary of State and under the Obama Administration the Democratic Party has continued its move to a socialist America. Hillary will be the standard-bearer of that policy if elected President, seeking greater government control over the lives, the security, and the money of Americans. The Clinton-Obama foreign policy has weakened America's standing in the world. Our Allies can't trust us and our Enemies don't fear us. Wrong foreign policy decisions begun by Hillary Clinton and carried forward by Barak Obama in Russia, Libya, Syria, Afghanistan, and Iraq have made the world a less safe and more volatile place. Under Clinton- Obama they have enabled the rise of the Islamic State while failing to provide a clear strategy to defeat ISIS and global Islamic terrorism. Hillary Clinton has been a key and significant participant in this alarming trend. From her wrong assessment of Russia to her statements about the attacks in Benghazi, and her mishandling of State Department EMail, Hillary continually appears unfit to fill the role of President of the United States. There is a saying that if we forget our history we are doomed to repeat it. This book is a recounting of the history of Hillary Rodham Clinton in a short overview fashion. It will highlight the reasons why Hillary Clinton should not be elected President. You decide. A portion of the net sales from this book and eBook will be donated to the Wounded Warrior Project.
