A Field Guide to Snakes of Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties in Florida

Kory Bartolotti, Glenn Bartolotti

This Field Guide is one of the most up to date and thorough references ever written about snakes indigenous to these five counties in Florida. This one of a kind reference guide provides detailed information and photos of venomous and non-venomous snakes native to the areas. ___ With this guide, every Scout leader, camper, hiker, and novice outdoorsman now has a picture gallery to help identify the snakes they find in the wild. They will also learn about potential venomous or threatening characteristics of the various snakes. ___ This guide is simple enough for a child to use, yet detailed enough to benefit the curious adult. ___ The idea behind this field guide: A couple of years ago Glenn and Kory Bartolotti spent their days hiking in and around west central Florida. Each time they ventured out, they found a variety of snakes. Once they started photographing and researching these reptiles, they quickly focused on identifying as many as possible.
