**Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics)** Michael Cowling, Edward Frenkel, Masaki Kashiwara, Alain Valette, David A. Vogan, Nolan R. Wallach

Six leading experts lecture on a wide spectrum of recent results on the subject of the title. They present a survey of various interactions between representation theory and harmonic analysis on semisimple groups and symmetric spaces, and recall the concept of amenability. They further illustrate how representation theory is related to quantum computing; and much more. Taken together, this volume provides both a solid reference and deep insights on current research activity.

**From reader reviews:**

**James Dickens:**

The book Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics) can give more knowledge and information about everything you want. Why must we leave a very important thing like a book Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics)? Some of you have a different opinion about guide. But one aim this book can give many info for us. It is absolutely right. Right now, try to closer with the book. Knowledge or details that you take for that, you may give for each other; you are able to share all of these. Book Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics) has simple shape but the truth is know: it has great and large function for you. You can appearance the enormous world by wide open and read a publication. So it is very wonderful.

**Connie Nixon:**

People live in this new moment of lifestyle always try to and must have the spare time or they will get lot of stress from both way of life and work. So , once we ask do people have spare time, we will say absolutely yes. People is human not just a robot. Then we question again, what kind of activity are there when the spare time coming to you actually of course your answer will certainly unlimited right. Then do you try this one, reading books. It can be your alternative inside spending your spare time, often the book you have read is usually Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics).

**Wendell Radford:**

Do you really one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Try to pick one book that you just dont know the inside because don't determine book by its include may doesn't work here is difficult job because you are scared that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer can be Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics) why because the excellent cover that make you consider regarding the content will not disappoint a person. The inside or content is fantastic as the outside or perhaps cover. Your reading sixth sense will directly direct you to pick up this book.

**John Coffin:**

What is your hobby? Have you heard this question when you got learners? We believe that that problem was

given by teacher to the students. Many kinds of hobby, Everybody has different hobby. And you know that little person including reading or as reading through become their hobby. You should know that reading is very important along with book as to be the issue. Book is important thing to add you knowledge, except your teacher or lecturer. You will find good news or update in relation to something by book. Many kinds of books that can you decide to try be your object. One of them is Representation Theory and Complex Analysis: Lectures given at the C.I.M.E. Summer School held in Venice, Italy, June 10-17, 2004 (Lecture Notes in Mathematics).
