## **11th Conference on British and American Studies: Embracing Multitudes of Meaning** Marinela Burada

The present volume includes a selection of twenty-nine papers by academics, and senior and junior researchers who came together within the framework of the 11th Conference on British and American Studies. Structured into three sections, the contributions included here display a wide array of topics and methodologies illustrating a variety of scholarly pursuits and approaches. These, in their turn, reflect the issues which constitute the complex nature of language and culture, and their mutual relationship. The authors' interests encompass aspects related to the structural and rhetorical organization of languages approached both individually and cross-linguistically; first and second language acquisition; issues of translation and rendering considered from linguistic and cultural perspectives; and the cultural construction of meaning and identity as reflected in literature and art.
