Trees are vital without them we simply wouldn't be here. Not only essential, they have been an inspiration throughout our history. In breathtaking photographs and stories we are taken on a journey from the boreal forest at the edge of the Arctic to the rainforests girdling the planet; from ancient bristlecones to fresh-leaved seedlings; from the charming and familiar to the scary and rare. An elegantly written and highly accessible text is complemented by an extraordinary collection of images created by some of the world's leading nature photographers.
