History of the Next Big Bang: a Theory of Nothingness: a Vulgar Astropsychology in the Tradition of Russian Cosmism and Vedic Cosmology Pavel Somov

"History of the Next Big Bang" is a neuro-psychoanalytical socio-cosmology. It is a work of vulgar astropsychology in the tradition of Russian Cosmism and Vedic Cosmology. This book posits and explores the concept of "nothingness" and its implications for the nature of the Universe.

"If you've been looking for a nonduality writer who shares your tendency for solitary walks down crooked alleys in the Chinatown district of all-that-is, and who admits that 99% of his words are unnecessary, Pavel Somov may be your guy. He delivers an enjoyable, revealing, slice and dice cosmology that is profane, arcane, and ultimately sane. "-Jerry Katz, Nonduality.com

"'Once you have eliminated the impossible,' said Sherlock Holmes famously, 'whatever remains, however improbable, must be the answer'. Yet our mixed-up epoch of post-modern relativism & mystic mathematics too often forgets that we are illuminated and liberated precisely by the our own limitations. Impossible thoughts such as "nothingness" and "emptiness" are not a sane basis for nourishing the human heart. Mr. Somov offers us a profound gift. He attempts to re-ground our psychological, spiritual and scientific worldviews in the exhilaratingly basic experience of our own creative boundaries. And he does so with his characteristic blend of sublime clarity, humorous vulgarity & deeply empathic humanism. I consider his amazing book The NEXT Big Bang to be essential reading for anyone who honestly wants to enhance their experience of reality." -Layman Pascal

Pavel Somov, Ph.D., is a licensed psychologist, on advisory board of London Mindfulness Center, author of "Eating the Moment," "Present Perfect," "Lotus Effect," "Smoke Free Smoke Break," "Reinventing the Meal," "Anger Management Jumpstart," and "Mindful Emotional Eating Jumpstart" (in press).
