The Cisco Certified Design Expert (CCDE) certification identifies networking professionals who have expert-level knowledge and skills in network design. The CCDE certification is parallel to and, in some areas higher than, the levels of expertise in the Cisco CCIE¨ certification.

The CCDE certification emphasizes network design principles and theory at the infrastructure level. This prestigious credential recognizes the architectural expertise of network designers who can support the increasingly complex networks of global organizations by effectively translating business strategies into evolutionary technical strategies.

This certification is intended for candidates who have day-to-day responsibilities for designing an IP network. It recognizes senior-level infrastructure design and architecture expertise in the marketplace and gives senior operations and support network engineers a validated professional development path for moving into a network architecture role that participates in business strategy.
