Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment

Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment

Three decades into the HIV pandemic, the goals remain clear: reduce the number of infections, improve the health outcomes of those who are infected, and eliminate disparities in care. And one observation continues to gain credence: families are a powerful resource in preventing, adapting to, and coping with HIV.

Recognizing their complex role as educators, mentors, and caregivers, *Family and HIV/AIDS* assembles a wealth of findings from successful prevention and intervention strategies and provides models for translating evidence into effective real-world practice. Chapters spotlight the differing roles of mothers and fathers in prevention efforts, clarify the need for family/community collaborations, and examine core issues of culture, ethnicity, gender, and diagnosis (e.g., minority families, adolescents with psychological disorders). Throughout, risk reduction and health promotion are shown as a viable public health strategy. A reference with considerable utility across the health, mental health, and related disciplines, *Family and HIV/AIDS* will be a go-to resource for practitioners working with families, researchers studying at-risk populations, administrators seeking to create new (or evaluate existing) prevention and care programs, and policymakers involved in funding such programs.

From reader reviews:

Marjorie Brown:

In this 21st millennium, people become competitive in each and every way. By being competitive currently, people have to do something to make them survive, being in the middle of the crowded place and notice by simply surrounding. One thing that at times many people have underestimated the item for a while is reading. Yes, by reading a guide your ability to survive improves then having a chance to stand than other is high. For you personally who want to start reading a new book, we give you that Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment book as a beginner and daily reading publication. Why, because this book is greater than just a book.

Ross Jackson:

Eleanor Sotomayor:

Your reading sixth sense will not betray an individual, why because this Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment guide written by well-known writer who knows well how to make a book which can be understood by anyone who else reads the book. Written in good manner for you, dripping every idea and publishing skill only to eliminate your current hunger then you still have skepticism. Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment as a good book not just by the cover but also by the content. This is one reserve that can break don't judge a book by its cover, so do you still need a different sixth sense to pick this!? Oh come on your reading sixth sense already told you so why you have to listen to another sixth sense.

Peter Christensen:

What is your hobby? Have you heard in which question when you got college students? We believe that that question was given by a teacher to the students. Many kinds of hobbies, Every individual has a different hobby. Therefore you know that a little person such as reading or as examining become their hobby. You need to know that reading is very important and a book as to be the thing. A book is an important thing to increase your knowledge, except your current teacher or lecturer. You get good news or update in relation to something by a book. Different categories of books that you can choose to adopt as your object. One of them is Family and HIV/AIDS: Cultural and Contextual Issues in Prevention and Treatment.
