Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems)

Generalizations of convex functions have been used in a variety of fields such as economics, business administration, engineering, statistics and applied sciences. In 1949 de Finetti introduced one of the fundamental of generalized convex functions characterized by convex level sets which are now known as quasiconvex functions. Since then numerous types of generalized convex functions have been defined in accordance with the need of particular applications. In each case such functions preserve some of the valuable properties of a convex function. In addition to generalized convex functions this volume deals with fractional programs. These are constrained optimization problems which in the objective function involve one or several ratios. Such functions are often generalized convex. Fractional programs arise in management science, economics and numerical mathematics for example. In order to promote the circulation and development of research in this field, an international workshop on "Generalized Concavity, Fractional Programming and Economic Applications" was held at the University of Pisa, Italy, May 30 - June 1, 1988. Following conferences on similar topics in Vancouver, Canada in 1980 and in Canton, USA in 1986, it was the first such conference organized in Europe. It brought together 70 scientists from 11 countries. Organizers were Professor A. Cambini, University of Pisa, Professor E. Castagnoli, Bocconi University, Milano, Professor L. Martein, University of Pisa, Professor P. Mazzoleni, University of Verona and Professor S. Schaible, University of California, Riverside.

From reader reviews:

Marilyn Washington:

The e-book with title Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems) possesses a lot of information that you can learn it. You can get a lot of benefit after read this book. This particular book exist new understanding the information that exist in this reserve represented the condition of the world now. That is important to yo7u to know how the improvement of the world. This specific book will bring you within new era of the glowbal growth. You can read the e-book on your smart phone, so you can read the item anywhere you want.

Dollie Simmons:

A lot of people always spent their own free time to vacation or maybe go to the outside with them family or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, as well as playing video games all day long. In order to try to find a new activity that is look different you can read a new book. It is really fun for you. If you enjoy the book that you just read you can spent all day every day to reading a reserve. The book Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems) it is very good to read. There are a lot of people who recommended this book. These people were enjoying reading this book. In the event you did not have enough space to create this book you can buy the e-book. You can m0ore very easily to read this book out of your smart phone. The price is not too expensive but this book offers high quality.

Margaret Parker:

Is it a person who having spare time and then spend it whole day by watching television programs or just lying on the bed? Do you need something totally new? This Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems) can be the response, oh how comes? The new book you know. You are consequently out of date, spending your extra time by reading in this completely new era is common not a geek activity. So what these textbooks have than the others?

Debra Daniel:

A number of people said that they feel fed up when they reading a reserve. They are directly felt the idea when they get a half portions of the book. You can choose often the book Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems) to make your own personal reading is interesting. Your current skill of reading skill is developing when you such as reading. Try to

choose easy book to make you enjoy to study it and mingle the idea about book and examining especially. It is to be first opinion for you to like to open up a book and go through it. Beside that the guide Generalized Convexity and Fractional Programming with Economic Applications: Proceedings of the International Workshop on "Generalized Concavity, ... Notes in Economics and Mathematical Systems) can to be your friend when you're really feel alone and confuse using what must you're doing of these time.
