## **Geometric Structure of High-Dimensional Data and Dimensionality Reduction** Jianzhong Wang

"Geometric Structure of High-Dimensional Data and Dimensionality Reduction" adopts data geometry as a framework to address various methods of dimensionality reduction. In addition to the introduction to well-known linear methods, the book moreover stresses the recently developed nonlinear methods and introduces the applications of dimensionality reduction in many areas, such as face recognition, image segmentation, data classification, data visualization, and hyperspectral imagery data analysis. Numerous tables and graphs are included to illustrate the ideas, effects, and shortcomings of the methods. MATLAB code of all dimensionality reduction algorithms is provided to aid the readers with the implementations on computers.

The book will be useful for mathematicians, statisticians, computer scientists, and data analysts. It is also a valuable handbook for other practitioners who have a basic background in mathematics, statistics and/or computer algorithms, like internet search engine designers, physicists, geologists, electronic engineers, and economists.

Jianzhong Wang is a Professor of Mathematics at Sam Houston State University, U.S.A.

### **From reader reviews:**

#### **Lillian Chatman:**

The ability that you get from Geometric Structure of High-Dimensional Data and Dimensionality Reduction is a more deep you rooting the information that hide in the words the more you get interested in reading it. It does not mean that this book is hard to know but Geometric Structure of High-Dimensional Data and Dimensionality Reduction giving you joy feeling of reading. The copy writer conveys their point in selected way that can be understood by simply anyone who read it because the author of this e-book is well-known enough. This kind of book also makes your vocabulary increase well. Therefore it is easy to understand then can go together with you, both in printed or e-book style are available. We recommend you for having this kind of Geometric Structure of High-Dimensional Data and Dimensionality Reduction instantly.

#### **Tracy Gardiner:**

The actual book Geometric Structure of High-Dimensional Data and Dimensionality Reduction has a lot of information on it. So when you make sure to read this book you can get a lot of profit. The book was compiled by the very famous author. The writer makes some research ahead of write this book. This book very easy to read you can find the point easily after scanning this book.

#### **Heidi Montgomery:**

Reading a book to become new life style in this season; every people loves to examine a book. When you examine a book you can get a wide range of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you want to get information about your analysis, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this sort of us novel, comics, and soon. The Geometric Structure of High-Dimensional Data and Dimensionality Reduction offer you a new experience in reading a book.

#### **Malcolm Moser:**

You may get this Geometric Structure of High-Dimensional Data and Dimensionality Reduction by look at the bookstore or Mall. Only viewing or reviewing it may to be your solve issue if you get difficulties for your knowledge. Kinds of this guide are various. Not only by written or printed but additionally can you enjoy this book through e-book. In the modern era such as now, you just looking by your local mobile phone and searching what your problem. Right now, choose your current ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still revise. Let's try to choose correct ways for you.
