After Death Communication: Final Farewells Louis LaGrand

After Death Communication: Final Farewells is a moving and compassionate work. This stirring book by Louis E. LaGrand, Ph.D., a pioneer in after-death communication (ADC) research, guides you through a common human experience which can be both astounding and empowering if you know how to interpret it.

Restore your hope and faith, and ease the process of mourning. With a knowledge that personality and love continues after physical death, hope and faith for the future becomes stronger and mourning becomes a transition in your life instead of a block to future development.

Learn how to assist and support someone who has an after-death contact. We live in an age of cynicism and skepticism. When a person in mourning has communication with a deceased loved one, it can cause surprise and even shock by countering those preconceptions. This book shows you how to help people through this experience.

Assess whether your own ADC experience was an authentic contact. If you believe strongly in the continuation of life after death, you may mistake a common experience for something extraordinary. This book will help you determine if your contact was real or wish fulfillment.

Explore the nine types of contact experiences. These include dreams of the deceased, certain sounds or touches, and a third party who becomes the messenger between you and the beyond.

Learn how others have used their contact with a deceased loved one to heal their grief and move on with their lives. This book consolidates over ten years of solid research and hundreds of documented case studies to help guide you on your own path.

For healing, hope, and comfort, read this book.
