## **Where Wild Things Grow** Craig Gilliam

Where wild things grow is W. Craig Gilliam's debut of 40 poems. He makes his home in Shreveport, Louisiana, and has written poetry since the early 90's.

"Poetry is not just a phenomenon of the mind but of the heart and soul. It invites us to grapple with the relationships between and among people and things; to live with complexity, mystery, uncertainty and ambiguity, to ask the beautiful questions and to find the invitation in each of these experiences," writes poet W. Craig Gilliam. "Poetry leaves things untidy, in the eternal complexity of the way it is." Some of the poems include: Where wild things grow; Horizons; Venus; It seems a mystery; Behold; Extremes are easy; Love's many forms; Faces of the moon, Musings on silence, What is courage?; Forgiving; Rest and many others. In this collection, Gilliam writes as a poet who has lived in and through the difficult questions, not afraid to live with messiness, while inviting us to the "place where the pale moon gleams and wild things grow." Where wild things grow invites us at every turn to a more precise, sensuous, and deepened experience of our individual uniqueness and shared humanity. A worthwhile read that offers food to digest and poems to ponder!
