Zero To Trading: 23 Confidential Trading Shortcuts: Blueprints to Profit Quickly and Safely in the Stock Market (Trading Strategy 201 Book 4) Steve Ryan

Have you ever thought about making a living trading?

Do you think it is even doable?

The question is...HOW?

There has been no official record, but many believe the world's record for trading profits held by Dan Zanger, as he managed to turn \$10,000 to \$18,000,000.

He was a normal guy who did the right thing by following the market trend principles and caught the bull market during the tech bubble.

He definitely lived the old "*Party like it was '99*" adage.

What happened in 99-00 had happened before, and will happen again.

Dan Zanger was definitely not the first.

There was Jesse Livermore, who bet on momentum (although the direction was DOWN) during the Great Depression.

Then there was Nicolas Darvas, a former dance teacher, who made \$2,000,000 in the stock market six decades ago.

Trading is not easy. No such thing as "100% guarantee" in the world of trading or investing, but trading also does not have to be complicated.

There are several trading basics every trader should know to make money consistently

WHY

Because the right trading knowledge make MORE MONEY with LESS TRADES.

We want to go that way.

Look, trading can be hazardous to our mental. It is unrealistically brutal to sit down for 7.5 hours (that's 27,000 SECONDS - mind you) staring at the price ticking at your trading screen.

With the right knowledge, we can avoid this problem while still making good profits we all desire.

HOW It Benefits You

The market is never be simple. Remember, it wants to take money from its participants. It is designed to fool most people.

Whether you are trading for a living, a beginner, an investor, investing for your retirement, or a seasoned professional, this book will help you to reach the next level.

WHAT You Will Learn

- 1) **Prompt Execution**: How to trade the right way with 23 key principles that not too many people talk about.
- 2) **Intelligent Selectivity**: **Limit the amount of trade by looking at trade and investment opportunities objectively.**
- 3) **Trade Optimization**: How you can minimize risks and maximize potential profits by finding the stocks with the best (longest and clean) momentum.
- 4) **Trading Stress Elimination**: **By entering and exiting the momentum run with conviction, you feel more confident.**
- 5) How to apply the principles when you are ready to trade live. Real life examples from previous occurrences are provided and discussed.
- 6) **Why Jesse Livermore once uttered "*You won't get rich taking a 4-point profit in a bull market!*"**

Are you really doing what it takes to be a consistently profitable investor or trader, or just talking about it?

If you haven't already, get the FREE course **Zero to Trading:How to Double Your Trading Skills in 3 Days** from MoneyVersity.net/Zero-to-Trading

The course consists of secret basic sauces of what make traders consistently profitable.

Don't Leave Your Trading to Chances...

...because then frankly, you just gamble your money away. Might as well go to Vegas. More fun.

Trading is a respectable profession that requires commitment, determination, and persistence. The trading learning curve also requires your time, energy, and capital.

Overtrading on the other hand, is hellish.

Overtrading takes away your mental and physical energy, and eventually, your money.

Momentum trading, discussed comprehensively in this book, is a trend-following strategy that specifically will kill "two birds with one stone."

First, it will solve the problem of *overtrading*. Second, it will bring the most profits, as Mr. Zanger would testify.
