Statistical Programming in SAS A. John Bailer PhD

In *Statistical Programming in SAS*, author A. John Bailer integrates SAS tools with interesting statistical applications and uses SAS 9.2 as a platform to introduce programming ideas for statistical analysis, data management, and data display and simulation. Written using a reader-friendly and narrative style, the book includes extensive examples and case studies to present a well-structured introduction to programming issues.

This book has two parts. The first part addresses the nuts and bolts of programming, including fostering good programming habits, getting external data sets into SAS to construct an analysis data set, generating basic descriptive statistical summaries, producing customized tables, generating more attractive output, and producing high-quality graphical displays. The second part emphasizes programming in the context of a DATA step, in macros, and in SAS/IML software.

Examples of statistical methods and concepts not always encountered in basic statistics courses (for example, bootstrapping, randomization tests, and jittering) are used to illustrate programming ideas. This book provides extensive illustrations of the new statistical graphics procedures in SAS, a description of the new ODS Graphics Editor, and an introduction to some of the capabilities of SAS/IML Studio, such as producing dynamically linked data displays and invoking R from SAS.

From reader reviews:

Nellie Ferguson:

Book is actually written, printed, or highlighted for everything. You can learn everything you want by a publication. Book has a different type. To be sure that book is important factor to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A e-book Statistical Programming in SAS will make you to always be smarter. You can feel much more confidence if you can know about every thing. But some of you think that will open or reading a new book make you bored. It isn't make you fun. Why they are often thought like that? Have you seeking best book or acceptable book with you?

Harrison Colon:

What do you in relation to book? It is not important with you? Or just adding material when you require something to explain what yours problem? How about your spare time? Or are you busy man or woman? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Every person has many questions above. The doctor has to answer that question due to the fact just their can do that. It said that about e-book. Book is familiar on every person. Yes, it is appropriate. Because start from on jardín de infancia until university need this specific Statistical Programming in SAS to read.

Jessica Seymore:

Hey guys, do you really wants to finds a new book to read? May be the book with the headline Statistical Programming in SAS suitable to you? The book was written by famous writer in this era. The particular book untitled Statistical Programming in SAS is the main of several books which everyone read now. This kind of book was inspired many people in the world. When you read this book you will enter the new way of measuring that you ever know before. The author explained their idea in the simple way, and so all of people can easily to be aware of the core of this book. This book will give you a wide range of information about this world now. So you can see the represented of the world on this book.

Daryl Sanders:

Do you have something that you enjoy such as book? The guide lovers usually prefer to select book like comic, brief story and the biggest you are novel. Now, why not striving Statistical Programming in SAS that give your pleasure preference will be satisfied simply by reading this book. Reading addiction all over the world can be said as the opportunity for people to know world a great deal better then how they react when it comes to the world. It can't be claimed constantly that reading addiction only for the geeky particular person but for all of you who wants to end up being success person. So , for all you who want to start examining as your good habit, you can pick Statistical Programming in SAS become your personal starter.
