Socialism, Capitalism, Transformation (Central European University Press Book) Leszek Balcerowicz
This volume gathers together a collection of essays integrated by two central themes: the comparative economic performance of different economic systems (centralized socialism, reformed socialism, competitive socialism), and the transition from socialism to capitalism under newly established pluralistic political systems in Central and Eastern Europe. Most of the essays are based on the first-hand experience of the author in stabilizing an economy in an early stage of hyperinflation and in transforming it into a competitive capitalist market economy.
