The Neville Chamberlain Diary Letters Neville Chamberlain

As a primary source of historical evidence and insight, it is difficult to overstate the value and importance of Neville Chamberlain's diary letters to his sisters. They represent the most complete and illuminating 'insider' record of British politics between the wars yet to be published. From 1915 Chamberlain wrote detailed weekly epistles to his sisters until his death in 1940; a confidential account of events covering the quarter of a century during which he stood at the very centre of Conservative and national politics. Beyond the fascination of the historical record of people and events, these letters are extremely valuable for the remarkable light they throw upon the personality and character of the private man lurking behind the austere public persona. Volume one covers the crucial formative period from Chamberlain's election as Lord Mayor of Birmingham, through his ill-fated emergence on the national stage as head of the newly-created Department of National Service in 1917 to his entry to the Commons at the age of fifty where as a backbencher he swiftly established a claim to advancement.
