## **The Case for a Creator Participant's Guide: A Six-Session Investigation of the Scientific Evidence That Points toward God (Groupware Small Group Edition)** Lee Strobel, Garry D. Poole

In the small group Bible study, *The Case for a Creator: A Six-session Investigation of the Scientific Evidence That Points Toward God*, Lee Strobel investigates scientific discoveries and explores how they form a solid basis for belief in God.

Former journalist and skeptic Lee Strobel has discovered something very interesting about science. Far from being the enemy of faith, science provides a solid foundation for believing in God as ongoing discoveries point to the incredible complexity of our universe, a complexity best explained by the existence of a Creator.

So has science finally discovered God? Certainly new discoveries in such scientific disciplines as cosmology, cellular biology, astronomy, physics and DNA research point to the incredible intricacy of our universe, a complexity best explained by the existence of a Creator. In it, weighty and complex evidence is delivered in a compelling, conversational style.

Written by Lee Strobel and Garry Poole, this six-session study is designed for use with the *Case for a Creator* companion DVD (sold separately).

Sessions include:

1. Science and God
2. Doubts and Darwinism
3. The Evidence of Cosmology
4. The Fine-Tuning of the Universe
5. The Evidence of Biochemistry
6. DNA and the Origin of Life
